Happy to Introduce New Urologist to UCC!

Urology Center of Columbus, LLC is proud to announce the association of Sean A. Castellucci, D.O. to Columbus, Georgia.

Dr. Sean Castellucci earned his medical degree from the Philadelphia College of Osteopathic Medicine in Philadelphia, Pennsylvania. He completed his clinical internship at Mercy Catholic Medical Center in General Surgery followed by a general surgery and urologic surgical residency at Albert Einstein Medical Center, and Hahnemann University Hospital, where he was chief resident. Dr. Castellucci has also completed a clinical externship at Memorial Sloane Kettering Oncology Center during his residency.

Dr. Castellucci is very involved in research which has earned him both national and international recognition, including many publications in peer reviewed journals. His investigations focused on new innovations in urologic, oncologic surgery including the first single port access laparoscopic adrenalectomy performed; as well as research in other fields of urology including prostate cancer.

He has presented at numerous, internationally recognized meetings including the American Urologic Association, the European Association of Urology, and the World Congress of Endourology. His research has also earned him various distinguishing awards including the Robert C. Erwin literary award, as well as the Leonard Finkelstein award in Urology.

His professional memberships include the American Osteopathic Association; the American Urologic Association and the American College of Osteopathic Surgeons. Dr. Castellucci has also been involved in numerous community activities ranging from volunteering for prostate cancer screenings to the presentation of seminars at nursing homes on urologic topics.

Dr. Castellucci's diverse professional interests and responsibilities have enhanced and complimented his role as both husband and father.

For more information, please call Urology Center of Columbus, LLC at (706) 324-7700 or visit our website at www.harperurology.com.

Clinical Research

We are participating in a clinical research study comparing different doses of investigational medication for the treatment of a condition called Chronic Prostatitis. Symptoms of Prostatitis, or an inflamed prostate are pelvic pain or discomfort, frequent or urgent urination, and pain or burning during urination.

Qualified participants may receive a study related physical exam, blood tests and investigational medication while taking part in this up to 16 week clinical study.

If you have been experiencing these symptoms for the past 3 months or longer, or have been diagnosed with Prostatitis or an inflamed prostate, please contact *Veta Robinson, LPN, CCRC* at (706) 243-3673.

Currently Enrolling Studies:

- Type 2 Diabetes
- Interstitial Cystitis
- Nocturia (frequent urination at night)

For more information about these enrolling studies
Contact Veta Robinson, LPN, CCRC at (706) 243-3673 or
research@harperurology.com

Free Prostate Cancer Awareness Seminar

Women are 100% more likely to visit the doctor for annual examinations and preventative services than men. (CDC 2001) 1 in 6 men will get prostate cancer, but if caught early, nearly 100% survive!

To learn more information about this free health seminar, please call **(706) 324-7700 ext. 233**.

The “Urinary Tract Team” Supporting Muscogee Relay for Life 2009

At Urology Center of Columbus our staff strives to help make a difference in someone’s life. That is why this year we participated in Relay for life event for the American Cancer Society. As we began raising money for this organization; reality hit home. Our physician assistant Melissa Fussell’s daughter Isabelle was diagnosed with Wilm’s Tumor. This is a type of cancer that affects the child’s kidneys. Isabelle is 3 years old and has been through several tests, procedures and treatments. She still has a long road ahead of her but has been a true angel through it all. This is just one of the reasons our office focuses on patient care. Our office raised over \$2,000 for this organization in only few months, and we will continue to support this organization for years to come!
